INTRODUCTION.

This volume is in continuation of the Catalogue and the Supplement thereto issued in June, 1902, and January, 1905, respectively, and has been arranged in a similar way. It also contains the subject index alluded to in the introductions to those volumes.

It should be mentioned that in this, as in the preceding volumes, the numerous books contained in that part of the Council's Library which is located in the Education Offices have not been included. It is proposed that a separate Catalogue of these books shall be prepared shortly.
